Uniting Science Against *Plasmodium vivax*

ICPvR 2027

LIMA, PERU

May 19-21, 2027

InterContinental
Real Lima Miraflores
Lima, Peru

International Conference
on *Plasmodium vivax* Research
(ICPvR 2027)

Scientific Program

Day 1: Wednesday 19 May 2027

09:00 – 09:30 | **Inaugural session**
Dionicia Gamboa, Katherine Torres, Wilfredo Gonzáles & Roberto Montoya

Session 1: Novel tools for diagnosis
Chair: Jane Carlton

09:30 – 09:50 | *Keynote lecture*
Bridging Standard and Next-Generation Diagnostic Tools to Map the Unseen: Asymptomatic and Relapsing *Plasmodium vivax* Infections
Speaker: Dionicia Gamboa

09:50 – 10:05 | *Plenary session*
Serological markers can predict risk of *Plasmodium vivax* relapse
Speaker: Rhea Longley

10:05 – 10:20 | *Plenary session*
Extracellular vesicles as novel biomarkers of hidden and asymptomatic *P. vivax* infections
Speaker: Carmen Fernandez-Becerra

10:20 – 10:50 | **Short talks**

10:50 – 11:10 | **Coffee break**

Session 2: Molecular surveillance and genomic approaches
Chair: Marcelo Ferreira

11:10 – 11:30 | *Keynote lecture*
Molecular advances in spatial and temporal surveillance of *Plasmodium vivax*
Speaker: Sarah Auburn

11:30 11:45	*Plenary session* **Genomic surveillance reveals population structure and cross-border connectivity of *Plasmodium vivax* in Latin America** *Speaker: Luis Cabrera*
11:45 12:00	*Plenary session* **What Drives *Plasmodium vivax* Transmission in Africa? Insights from Ethiopia Across the Human Host, Parasite, Vector, and Genome** *Speaker: Fitsum Tadesse*
12:00 12:30	**Short talks**
12:30 14:00	**Lunch**

Session 3: *P. vivax* malaria treatments

Chair: Kamala Ley-Thriemer

14:00 14:20	*Keynote lecture* **Implementing new treatments: how long does it take?** *Speaker: Marcus Lacerda*
14:20 14:35	*Plenary session* **TBD** *Speaker: Aung Pyae Phyo*
14:35 14:50	*Plenary session* **Priorities and progress towards safe and effective radical cure of *P. vivax*** *Speaker: Ric Price*
14:50 15:05	*Plenary session* **Focal mass drug Administration for vivax Malaria Elimination (FLAME): a pragmatic cluster randomized controlled trial in Peru: Preliminary Findings** *Speaker: Veronica Soto*

15:05 15:50	Coffee break
15:50 16:30	Short talks
19:30	Gala dinner

Day 2: Thursday 20 May 2027

Session 4: Relapse and hidden reservoirs for *P. vivax*
Chair: Jean Popovici

09:30 09:50	*Keynote lecture* Genomic insights into ***P. vivax*** relapse and hypnozoite reactivation *Speaker: David Serre*
09:50 10:05	*Plenary session* Exploring host factors associated with ***Plasmodium vivax*** susceptibility *Speaker: Fabio Costa*
10:05 10:20	*Plenary session* ***Plasmodium vivax*** and the bone narrow: A reservoir of complexity *Speaker: Sylvie Garcia*
10:20 10:50	Short talks
10:50 11:10	Coffee break

Session 5: *P.vivax*-human interactions and invasion
Chair: Anna Rosanas-Urgell

11:10 11:30	*Keynote lecture* TBD *Speaker: Jean Popovici*

11:30 11:45	*Plenary session* **TBD** *Speaker: Benoit Malleret*
11:45 12:00	*Plenary session* **TBD** *Speaker: Wai Hong Tham*
12:00 12:30	**Short talks**
12:30 14:00	**Lunch**

Session 6: Immune response and vaccine development

Chair: Lis Antonelli

14:00 14:20	*Keynote lecture* **From Durable Antibody Responses to Memory B Cells in the Development of Long-Lived Immunity to *Plasmodium vivax*** *Speaker: Patchanee Chootong*
14:20 14:35	*Plenary session* **Beyond Symptoms: The Hidden Dialogue Between *Plasmodium vivax* and the Immune System** *Speaker: Lis Antonelli*
14:35 14:50	*Plenary session* **Beyond the parasite: Decoding host immunity in *Plasmodium vivax* through RNA-seq** *Speaker: Katherine Torres*
14:50 15:35	**Coffee break**
15:35 15:50	*Plenary session* **Systems immunology approaches for understanding susceptible and immunity to *Plasmodium vivax* malaria** *Speaker: Diana Hansen*

15:50 – 16:05
Plenary session
Improving efficacy of a *Plasmodium vivax* circumsporozoite protein-based pre-erythrocytic vaccine
Speaker: Francis Ntumngia

16:05 – 16:20
Plenary session
TBD
Speaker: Caroline Junqueira

16:20 – 16:50
Short talks

Day 3: Friday 21 May 2027

Session 7: Innovative model systems
Chair: Liliana Mancio

09:30 – 09:50
Keynote lecture
TBD
Speaker: Rob Moon

09:50 – 10:05
Plenary session
Recent contributions of non-human primates to our understanding of malaria infection and immunity
Speaker: Brandon Wilder

10:05 – 10:20
Plenary session
Visiting a cousin: *P. knowlesi* transcriptomics to guide *P. vivax* research
Speaker: Kalinjn De Meulenaere

10:20 – 10:50
Short talks

10:50 – 11:10
Coffee break

Session 8:
Entomology: from field surveys to molecular approaches
Chair: Maria Eugenia Grillet

11:10 11:30	*Keynote lecture* **Understanding mosquito diversity, ecology, and evolution for improved malaria vector control** *Speaker: Marta Moreno*
11:30 11:45	*Plenary session* **Baseline characterization of entomological drivers of malaria transmission in endemic Amazonian areas** *Speaker: Maisa Araujo*
11:45 12:00	*Plenary session* **Learning to eliminate dominant malaria vector species** *Speaker: Fredros Okumu*
12:00 12:30	**Short talks**
12:30 14:00	**Lunch**

Session 9: Ecology, climate change, and *P. vivax* transmission
Chair: Pablo Secato

14:00 14:20	*Keynote lecture* **TBD** *Speaker: Marcia C. Castro*
14:20 14:35	*Plenary session* **Understanding the Resurgence and Expanding Landscape of *Plasmodium vivax* Transmission in Ethiopia: Climate, Ecology, and Connectivity** *Speaker: Wakweya Chali Gerba*
14:35 14:50	*Plenary session* **Warming World, Shifting Risk: Malaria Transmission in a Changing Landscape** *Speaker: Courtney Murdock*

14:50 15:20	**Short talks**
15:20 16:05	**Coffee break**

Session 10:
Roundtable: Control and elimination strategies
Moderators: Leanne Robinson & Roberto Montoya

16:05 17:05	*Speakers:* • *Cassio Peterka* • *Hong Van Nguyen* • *Manju Rahi* • *Maria Ome-Kaius* • *Gustavo Bretas* • *Javier Aramburú Guarda*
17:05 17:20	**Closing ceremony** *Katherine Torres and Dionicia Gamboa*
